WILKESBARRE, Pa., July 14.—An express train on the Hazelton branch of the Lehigh Valley railroad, while rounding a curve Monday afternoon, struck a cow. The engine was derailed and thrown down an embankment 300 feet high and three passenger coaches were thrown from the tracks upon their sides. W. L. Dowd, an engineer, was killed and a score of people hurt, several seriously.

Among the injured are: Bernard Mooney, fireman, seriously; Henry Brodhun; Mrs. Henry Brodhun, very seriously; Pat McCloskey, condition critical; Mary S. Bauer, Mrs. Rosa A. Clark, Daniel Clonska, James McDonald; Mrs. R. L. Clark, severely hurt. The fireman, Mooney, jumped out of the cab window and followed the engine down the bank, receiving serious if not fatal injuries, while Engineer Dowd was pinned under the engine when found. He was so terribly injured and scalded that he died soon after being taken from under the wreck. All three of the coaches turned over on their sides. The passengers were thrown over their seats in all directions and all suffered more or less injury.

CHAIRMAN HANNA

Makes Public the Names of the Republican Executive Committee.

CLEVELAND, O., July 14.—M. A. Hanna gave out the following statement Monday:

"I am now preparing for the fight, for it is going to be a fight and a hot one at that. We think that the western and southern states are debatable ground, and we shall go into the contest with that idea. The Dakotas should go republican, Nebraska should be republican, and the same is true of Alabama and Louisiana. I have not fully made up my mind as to the conditions political of the people of the border states, but think we have a fighting chance there."

After weighing in the balance the names of 20 prominent republicans for a month, Chairman M. A. Hanna has named the executive committee who will be his co-laborers and advisors in managing McKinley's campaign.

The official list contains the names of M. A. Hanna, of Ohio, chairman; M. S. Quay, of Pennsylvania; Jos. H. Manley, of Maine; H. C. Payne, of Wisconsin; Cyrus Leland, of Kansas; Powell Clayton, of Arkansas; C. G. Dawes, of Illinois; W. T. Durbin, of Indiana; and N. B. Scott, of West Virginia. Despite the story that John Milholland had secured a representative from New York on the committee, too much pressure was brought to bear upon Hanna to the contrary, and New York will not have representation on the executive committee.

The republican executive committee will meet in this city on Wednesday. W. M. Osborn, of Boston, is made secretary of the committee and A. J. Dick, of this city, assistant secretary.

HOARDING GOLD.

The Treasury Being Depleted—Another Bond Issue Will Be Necessary.

WASHINGTON, July 14.—Sub-Treasurer Jordan, of New York, has privately informed the treasury department that much of the gold that has been withdrawn from the treasury reserve through his office has been taken by individuals for hoarding, and he has intimated to the department that such withdrawals are likely to continue during the summer and fall. This feature of the gold situation gives the treasury department much uneasiness.

The belief is freely expressed among treasury officials that another issue of bonds may become necessary before the close of President Cleveland's administration.

THE ACTION

Of This Government in Its Negotiations With Spain.

Secretary Olney is Very Firm in His Demands for Redress.

The Spaniards Must Not Mistreat American Citizens—The Right of Expulsion of Aliens From Their Territory Conceded, Without Harshness.

WASHINGTON, July 14.—The state department has made public a full detail of the action of the government in its negotiations with Spain concerning the now settled Mora claim and a thorough amplification of all the circumstances up to October 5 last, including the Alliance case, regarding the assaults by Spanish officers in Cuba upon American citizens, nearly all of which have substantially appeared from time to time in the United Press dispatches. Both under Havana and Washington dates. Included in the correspondence is a letter from Secretary Olney to Mr. Dupuy de Lome, referring to the expulsion of John A. Sowers, Jos. A. Ausley, Aurelio A. Ausley and Marie Luis Ausley, all citizens of the United States from Cuba, a proceeding, says Mr. Olney in his letter, which is of the date of September 27 last, that "is harsh in this regard, that two of the deported persons, Mr. Joseph A. Ausley and Mr. John A. Sowers, are said to have been men of family, and being in impoverished circumstances to have been compelled to leave their wives and children behind them without resources."

In this case Mr. Olney said further: "The right of Spain, as of other sovereign states, to expel aliens need not be discussed. If the right be conceded to the fullest extent, the mode of its exercise may be so harsh, unreasonable and oppressive as to give just ground of complaint, and was so beyond all doubt in the cases now under consideration. The proceedings, at every stage and in every particular, seem to have been characterized by wilful disregard, not merely of the rights of American citizens, but of the dictates of common humanity. This government can not be expected to look upon such proceedings except with indignation, nor to pass them over without remonstrance. It takes this occasion, therefore, to make known its sentiments in the matter and give notice that it will demand adequate redress for the indignity and injustice inflicted on Sowers and Ausley and that it will expect such precautionary measures to be taken by the Spanish government for the future as will prevent any like treatment of other American citizens."

COLLIDED WITH A SCOW.

The Mallory Line Steamer Colorado Badly Damaged—Panic on Board.

NEW YORK, July 14.—The Mallory line steamer Colorado, from Brunswick, Ga., with 28 passengers and a general cargo, collided with a loaded mud scow at three o'clock Tuesday morning while proceeding up the main channel in the lower bay on her way to the city. The steamer was badly damaged about the bows and began to make water so rapidly that Capt. Burrows at once beached her.

There was much excitement immediately after the collision and the frightened passengers flocked hurriedly to the deck. They were in no danger, however, and their fears were soon allayed. They were taken to the city Tuesday morning in tugs. The Colorado lies deep in the water and has evidently been considerably damaged. Wrecking tugs are at the scene to render assistance.

SAN FRANCISCO, July 14.—The explosion of an oil lamp shortly before midnight set fire to the shoe shop of Wo Lung Chung, No. 721 Jackson street, and before the flames were controlled a butcher shop and general store adjoining were completely gutted. The upper stories of the buildings were occupied as tenements and a family of seven Chinamen living above the shoe shop are missing and it is believed that they have perished in the flames. The property loss is estimated at \$25,000.

PRESIDENT FAURE.

It Is Claimed That an Attempt Was Made to Assassinate Him.

PARIS, July 14.—While President Faure was entering the grounds at Longchamps Tuesday for the purpose of reviewing the troops a man standing near him fired a revolver. Great excitement ensued, and the man was immediately seized and disarmed. He declared that he had not fired at the president, and that he had only fired a blank cartridge. When it was seen that the president had not been injured the crowd cheered him again and again.

PRESIDENT FAURE.

When the shot was fired President Faure was seated in his carriage, being driven over the reviewing grounds to the stand. He was surrounded by a line of troops. The president was unmoved and appeared to take no notice of the shot. Reports are in circulation that the man fired his revolver twice, but these reports are denied.

The prisoner's assertion that he fired a blank cartridge is credited by some, as no trace of a bullet can be found. Anyhow, if there was a bullet in the cartridge he exploded it went wide of the mark.

IMMENSE METEOR.

It Fell in the State of Chihuahua and Made a Noise Like a Cannon.

CHIHUAHUA, Mex., July 14.—Particulars have reached here of the fall of a meteor in the small mining town of Santos Reis, this state. The meteor was of immense size, and as it descended through the air it was a molten mass of metal. It made its descent at noon and was accompanied by a report louder than that made by a cannon.

It struck the hut of a miner and demolished the building, killing two children, and then buried itself in the ground to a great depth. A large part of the meteor was broken off when it struck, and it will be sent to the national museum at the City of Mexico. There had been no rain in that section for nearly a year, but within 20 minutes after the fall of the meteor the sky became overcast with clouds and a heavy fall of rain took place.
